

Make a mini den

Lots of creatures make their homes in the woods. Could you make one for your teddy or toy animal?

1. Take your teddy or toy animal for a walk in the woods and find a sheltered space.
2. Gather some sticks and see if you can balance them to make a stick house.
3. Get decorating! Can you find leaves, pine cones or moss to add to your den?
4. Don't forget to take teddy home with you when you've finished!

What other woodland animals do you think might like to live in your mini den?
