Working with nature has really contributed to my mental well-being

Matthew, Volunteer

I like the idea that my working day can make a small contribution to the future of the planet. It is great to work with people who don't just hope we can do it but who are doing what they can to make it happen."

Kitty Cox, Major Appeals Manager

I have got to know many volunteers and it is nice to hear about their backgrounds. I know many of the staff and...they have a wide range of knowledge which they will always willingly share with myself and other volunteers. I always look forward to visiting Earth Trust...Basically it's a family.

Michael, Volunteer

We seek a world where nature and people thrive in balance and where, as individuals, we all have a deep understanding of our environment, our place in it and our role in caring for it.

Our purpose

We are facing a triple threat of climate change, loss of biodiversity, and a massive public health crises, made worse for those in disadvantaged communities who have little or no access to nature.

Our purpose is to inspire people to address these crises through the power of natural green spaces.

Our vision

Our vision is a society where accessible, engaging green spaces enable nature and people to thrive in balance.

Our mission

Our mission is to champion access and engagement with natural green spaces for everyone, so that together we take action for people and planet

Earth Trust has been working towards this for 40 years, but it has never been more critical than now.

Demonstrate. Influence. Engage

More about Earth Trust

Earth Trust is an environmental charity with 40 years' experience in caring for and inspiring others with the natural green spaces.

We believe that we all have a responsibility to care for nature and understand our role within our ecosystem.

But, for people to understand their environment, their place in it and their role in caring for it, they must have the opportunity to experience its power and nurture a deep connection.

Together with our supporters, Earth Trust is guardian of some extremely special and inspiring places full of nature and heritage. We care for 500 hectares of woodland, farmland, wildflower meadows and wetlands, which receive 200,000 visits a year.

We use these amazing places to engage and inspire people and to demonstrate nature-based solutions to climate, biodiversity and public health crises, that we hope others will take and use elsewhere.
